

## Make a Paper Manger Scene!

You will need: paper (cardstock or construction paper works best), scissors, glue, and any additional decorative items you have on hand... glitter, ribbon, markers or crayons, etc.

1. To make a manger: on an 8.5"x11" piece of paper, draw lines from a point in the top center to 2" from each short side top. Cut away small triangles. Decorate by gluing a star on top and straw on the ground. (use glitter or ribbons or shredded paper scraps!) Fold each short edge of the paper 2" from the sides so that it will stand up.

3. Color the people, animals, and manger below. Cut out along lines. Fold each piece along guides. Place in your 'manger'.
