

PEACE DOVE GARLAND

You will need:

Several large coffee filters (9.75")
Scissors
String, yarn, or ribbon
Markers or crayons
Tape

Instructions:

- Fold coffee filters in half. They are thin, so you can usually cut 3 or 4 at a time.
- Trace the dove outline on this page onto the filters, with the belly of the dove on the center fold. Cut out dove (but not the center fold). Draw an eye and color the beak if you'd like.
- Fold wings open, outward where the dotted line is.
- Place string, yarn, or ribbon inside dove and tape across the top of the open wings. This will help the wings stay open.
- Attach several doves to your string to make a garland.
- Cut out medallion with John 14:27 verse (above) and punch a hole in the top. Color or decorate the hearts. You can make your own hearts or sayings to hang from your garland, too!
- Use string, yarn, or ribbon to hang the medallion(s) in between the doves.
- Hang your garland in your window to share God's peace.
