

*Trinity Bracelet Craft: scissors, tape*

Cut out the square below. Turn your square so that it looks like a diamond, with the words at the top. Take the bottom corner and fold it up *below the words*, so that they all show. Flip your paper over, grab the bottom, and fold up about 1/2 inch (so that the words 'Father' are visible in both corners). Continue folding, with words showing, until you get to the top corner. Use a small piece of tape to hold the corner in place. Bend your strip into a bracelet shape and tape it together to keep it in place.
